Monday 8th January 2018

Dear Parents/ carers,

In response to the recent parents general and behaviour surveys we have, as a staff team been discussing how we deal with behaviour issues on a day to day basis and, importantly, how we communicate with you. The results of both surveys are available on the 'Parents' section of the 'Our School' section of the website.

We strongly believe that, in order to maintain positive relationships, it is important to keep you informed about how well your child is progressing with their learning as well as the choices they are making about their behaviour. In order to do this in the most efficient and effective way we have decided that teachers of children in years 1 to 6 will start using ClassDojo!

This is a free online resource which enables staff to instantly share good news/ messages and updates about your child's learning and behaviour and we can also quickly share information about anything that has not gone so well during the day. This means that you can discuss both the positive and not so positive messages with your child in order to support them (and us) with their learning and behaviour.

For this to be highly effective parents are required to sign up via either the online web version at www.classdojo.com or by using the free mobile app (both android and iOS). The system is safe and simple to use for both parents and school staff.

Over the next few days your child will bring home a parent invite/ sign up code. In addition, we would like to invite you to a meeting on Monday 15th January at 9.00am in the school hall where we will be happy to explain how the app works.

We would like as many parents as possible to sign up to this fantastic and widely used resource.

Yours sincerely

Mrs R Crowther
Headteacher
