## **5. Education and Engagement Approaches**

### **5.1 Education and engagement with learners**

- The setting will establish and embed a progressive online safety curriculum to raise awareness and promote safe and responsible internet use amongst learners by:
  - Ensuring education regarding safe and responsible use precedes internet access.
  - Including online safety in Personal, Social, Health and Economic (PSHE), Relationships and Sex Education (RSE) and computing programmes of study.
  - Reinforcing online safety messages whenever technology or the internet is in use.
  - Educating learners in the effective use of the internet to research; including the skills of knowledge location, retrieval and evaluation.
  - Teaching learners to be critically aware of the materials they read and shown how to validate information before accepting its accuracy.
- The setting will support learners to read and understand the acceptable use policies in a way which suits their age and ability by:
  - Displaying acceptable use posters in all rooms with internet access.
  - Informing learners that network and internet use will be monitored for safety and security purposes and in accordance with legislation.
  - Providing online safety education and training as part of the transition programme across the key stages and when moving between establishments.
  - Seeking learner voice when writing and developing online safety policies and practices, including curriculum development and implementation.
  - Using support, such as external visitors, where appropriate, to complement and support our internal online safety education approaches.

### **5.2 Vulnerable Learners**

- Dallimore Primary and Nursery School recognises that some learners are more vulnerable online due to a range of factors. This may include, but is not limited to children in care, children with Special Educational Needs and Disabilities (SEND) or mental health needs, children with English as an additional language (EAL) and children experiencing trauma or loss.

- Dallimore Primary and Nursery School will ensure that differentiated and ability appropriate online safety education, access and support is provided to vulnerable learners.
- When implementing an appropriate online safety policy and curriculum Dallimore Primary and Nursery School will seek input from specialist staff as appropriate, including the SENCOs (Katie Smith and Kate Clemens) and Child in Care Designated Teacher (Rachel Crowther)

### 5.3 Training and engagement with staff

We will:

- Provide and discuss the online safety policy and procedures with all members of staff as part of induction.
- Provide up-to-date and appropriate online safety training for all staff on a regular basis, with at least annual updates (staff sign to acknowledge attendance at such training)
  - This will be delivered during the annual safeguarding training with additional updates as necessary/ appropriate
  - This will cover the potential risks posed to learners (Content, Contact and Conduct) as well as our professional practice expectations.
- Recognise the expertise staff build by undertaking safeguarding training and managing safeguarding concerns and provide opportunities for staff to contribute to and shape online safety policies and procedures.
- Make staff aware that our IT systems are monitored, and that activity can be traced to individual users; staff will be reminded to behave professionally and in accordance with our policies when accessing our systems and devices.

- We will build a partnership approach to online safety with parents and carers by:
  - Providing information and guidance on online safety in a variety of formats.
    - This will include offering specific online safety awareness training and highlighting online safety at other events such as parent evenings, transition events, fetes and sports days.
  - Drawing their attention to the online safety policy and expectations in newsletters, letters, our prospectus and on our website.
  - Requesting that they read online safety information as part of joining our community, for example, within our home school agreement.

- Requiring them to read our acceptable use policies and discuss the implications with their children.

## 6. Reducing Online Risks

- Dallimore Primary and Nursery School recognises that the internet is a constantly changing environment with new apps, devices, websites and material emerging at a rapid pace.
- We will:
  - Regularly review the methods used to identify, assess and minimise online risks.
  - Examine emerging technologies for educational benefit and undertake appropriate risk assessments before use in the setting is permitted.
  - Ensure that appropriate filtering and monitoring is in place and take all reasonable precautions to ensure that users can only access appropriate material.
  - Due to the global and connected nature of the internet, it is not possible to guarantee that unsuitable material cannot be accessed via our computers or devices.
- All members of the community are made aware of our expectations regarding safe and appropriate behaviour online and the importance of not posting any content, comments, images or videos which could cause harm, distress or offence to members of the community. This is clearly outlined in our acceptable use policies and highlighted through a variety of education and training approaches.

## 7. Safer Use of Technology

### 7.1 Classroom Use

- Dallimore Primary and Nursery School uses a wide range of technology. This includes access to:
  - Computers, laptops and other digital devices
  - Internet which may include search engines and educational websites

  - Digital cameras, web cams and video cameras
- All setting owned devices will be used in accordance with our acceptable use policies and with appropriate safety and security measures in place.
  - Tablets are managed using Microsoft Intune, and use our standard web filtering to prevent access to inappropriate websites.
  - Only the computing subject leader, and the school technician are able to install apps, and this is controlled centrally using Intune.
  - Should a device be stolen, tablets can be remotely wiped and staff machines are encrypted using bitlocker to prevent data breaches.
  - All windows devices are protected via BitLocker
- Members of staff will always evaluate websites, tools and apps fully before use in the classroom or recommending for use at home.

- The setting will use age appropriate search tools following an informed risk assessment, to identify which tool best suits the needs of our community.
  - Our primary search engine of choice is Google, with safe search enabled. We do however advocate the use of other online resources, such as DK find out, Swiggle, and Bing, as our children need to know that information can vary between these resources.
- We will ensure that the use of internet-derived materials, by staff and learners complies with copyright law and acknowledge the source of information.
- Supervision of learners will be appropriate to their age and ability.
  - Early Years Foundation Stage and Key Stage 1

    - Learners will be directed by the teacher to online materials and resources which support the learning outcomes planned for the learners age and ability.

## **7.2 Managing Internet Access**

- We will maintain a written record of users who are granted access to our devices and systems.
- All staff, learners will read and sign an acceptable use policy before being given access to our computer system, IT resources or internet. Visitors are able to access the internet via our guest Wi-Fi login and will not have access to our IT system.
- We will carry out regular audits and audit activity to help identify pupils trying to access sites to establish any vulnerabilities and offer advice, support and react accordingly

## **7.3 Filtering and Monitoring**

Note: A guide for education settings about establishing 'appropriate levels' of filtering and monitoring can be found at: <https://www.saferinternet.org.uk/advice-centre/teachers-and-school-staff/appropriate-filtering-and-monitoring>

### **7.3.1 Decision Making**

- Dallimore Primary and Nursery School governors and leaders have ensured that our setting has age and ability appropriate filtering and monitoring in place, to limit learner's exposure to online risks.
- The governors and leaders are aware of the need to prevent "over blocking", as that may unreasonably restrict what can be taught, with regards to online activities and safeguarding.
- Our decision regarding filtering and monitoring has been informed by a risk assessment, considering our specific needs and circumstances.
- Changes to the filtering and monitoring approach will be risk assessed by staff with educational and technical experience and, where appropriate, with consent from the leadership team; all changes to the filtering policy are logged and recorded. Any additions or restrictions can be accessed by logging onto the filtering portal.

- The leadership team will ensure that regular checks are made to ensure that the filtering and monitoring methods are effective and appropriate.
- All members of staff are aware that they cannot rely on filtering and monitoring alone to safeguard learners; effective classroom management and regular education about safe and responsible use is essential.

### 7.3.2 Filtering

- Education broadband connectivity is provided through KCOM.
- We use Capital Bytes-NetSweeper which blocks sites which can be categorised as: pornography, racial hatred, extremism, gaming and sites of an illegal nature. BYOD and staff, also have access to social media, so that the Facebook page can be updated
- The filtering system blocks all sites on the Internet Watch Foundation (IWF) list.
- We work with Netsweeper and DCC to ensure that our filtering policy is continually reviewed.
- If learners discover unsuitable sites, they will be required to:
  - turn off monitor/screen and report the concern immediate to a member of staff. They should not close the browser, as this will be needed to obtain the URL
  - The member of staff will report the concern (including the URL of the site if possible) to the DSL (or deputy) and/or technical staff.
  - The breach will be recorded and escalated as appropriate.
  - Parents/carers will be informed of filtering breaches involving their child.
- Any material believed to be illegal will be reported immediately to the appropriate agencies, such as the IWF, Derbyshire Police or CEOP.

### 7.3.4 Monitoring

- We will appropriately monitor internet use on all setting owned or provided internet enabled devices. This is achieved by:
  - Weekly logs are sent to Chris Edwards, detailing any attempts to access restricted materials. These are available on request
- If a concern is identified via monitoring approaches we will:
  - Speak to the user(s) involved and decide on the most appropriate action. This may involve simply blocking the site, informing the DSL, and/or removing the individual's access to the school network
  - All users will be informed that use of our systems can be monitored and that all monitoring will be in line with data protection, human rights and privacy legislation.

## 7.4 Managing Personal Data Online
